PROJECT OVERVIEW

Project	1
Role	Support Analyst/ Team Lead
Technology	.Net C#, Oracle, XSLT
Others	XML, Excel, EDI

Dedicated Dealer Interaction (DDI)-The objective of DDI is to provide the Sales Organizations with the means to run a trade marketing program optimized for the two-tiered distribution environment (business to business and business to customer) in their respective local markets. DDI enables us to lead the sales and stock figures about our main dealers and export the data to SAP to generate reports as per the business requirement. It is an application which provides functions to import, process and calculate distribution data delivered by distributors and wholesalers.

- He has been part of the project from the Pilot Phase of the Transition.
- He was involved in the transition of one of the critical applications (DDI.)

- He has been responsible for the L2/L3 support on application issues, and on servicing standard issues from users.
- He has taken up the team lead roles & responsibilities For DDI.
- He is responsible for maintaining the weekly KPI status reports & in conducting the client governance calls on reviewing the team performance.
- He is responsible for maintaining the Knowledge Database by documenting frequent issues and workarounds for resolution at first line, and in creating Knowledge Articles on DDI.
- He is responsible for resource management and is in charge of the Knowledge transition and Mentoring of new team members.
- He is responsible for driving key operational services such as Problem Management and Change Management for improving the application stability and functionality.
- He has worked on key enhancements on security improvements for the application.
- He owns the End to End coordination with users/clients on Corrective and Adaptive Change Request related to DDI
- He has Co-ordinated the Project deployment and regression test planning activities and had a successful on time implementation of enhancement projects.
- He has Co-ordinated on the post deployment audit processes as well.
- He has also involved in the application migration activities to informatics which is an ongoing Development project.

Project	2
Role	Support Analyst
